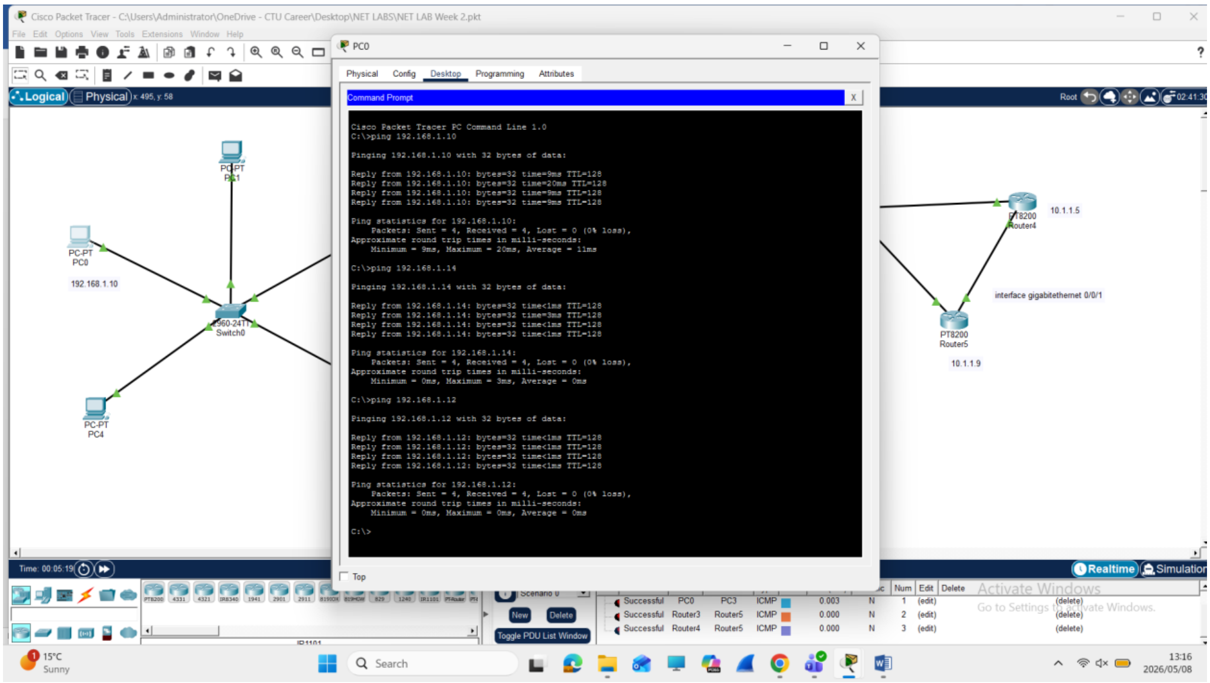
Week 2



Redundancy and fault tolerance assessment are done to ensure that a network can continue working or if a connection fails. Ping test can help check connectivity for if there may be a loss of files that may need to be deliver to another network, it shows that a network is working correctly and that everything working effectively. Protocols are set in place and need to be configured in correctly so that they can provide automatic failovers if a router in a topology. Assessments can show weather a connection is set up correctly or if something needs to be configured or connected correctly

HSRP/VRRP are a Cisco protocol that keep networks running when a router fails. In a topology if there are two routers one works as the main router and the second one is used as the backup router. They can share the same IP address and the same default gateway for encase the main stops working the backup ac automatically take over so that network can stay connected

%SYS-5-CONFIG_I: Configured from console by console

Router#show ip interface brief
Interface              IP-Address      OK? Method Status                Protocol
GigabitEthernet0/0     192.168.1.1     YES manual up                    up
GigabitEthernet0/1     unassigned      YES NVRAM  administratively down down
GigabitEthernet0/2     unassigned      YES NVRAM  administratively down down
Vlan1                  unassigned      YES NVRAM  administratively down down
Router#ping 192.168.1.100

Type escape sequence to abort.
Sending 5, 100-byte ICMP Echos to 192.168.1.100, timeout is 2 seconds:
.!!!!
Success rate is 80 percent (4/5), round-trip min/avg/max = 1/6/12 ms

Router#copy running-config tftp
Address or name of remote host []? 192.168.1.100
Destination filename [Router-confg]?

Writing running-config...!!
[OK - 709 bytes]

709 bytes copied in 0.013 secs (54538 bytes/sec)
Router#copy startup-config tftp
Address or name of remote host []? 192.168.1.100
Destination filename [Router-confg]?

Writing startup-config...!!
[OK - 776 bytes]

776 bytes copied in 0 secs
